

1768PA3

Allen-Bradley CompactLogix 1769 L4 Power Supply 85 to 265V AC and 108 to 132V DC

Allen-Bradley

by ROCKWELL AUTOMATION

MID-RANGE CONTROL SYSTEMS

Component type	PLC system power supply
Range	CompactLogix 1769
Model	N/A
Alternative	CALL FOR ALTERNATIVE

The Allen-Bradley CompactLogix 1769 programmable controllers are designed to provide a cost-effective, compact control solution for small to medium-sized applications. Includes integrated safety and adoption of the same programming software, network protocol and information capabilities included in all Logix controllers.

ELECTRICAL

Type of voltage (input voltage)	AC
Type of output voltage	DC
Power output	90.0 W
Redundancy	No
Max. output current DC	3.5 A
Input voltage at AC 50 Hz	85 - 265 V

ENVIRONMENT

Operating temperature	0,60 °C
-----------------------	---------
